UP CLOSE

Read the Data Plate

Every container carries this safety plate on the left door. Ask us for a photo of the plate on your exact unit.

2. Type code: size and height
3. Owner number: matches the doors
4. Timber treatment
5. Date manufactured
6. Max gross mass
7. Stacking load

Our guarantee: 365-day wind and watertight guarantee, then free patch kits for life. Inspect your container when it arrives. Send us photos and video of any damage or leak within 10 days of delivery.

WHAT YOU ARE BUYING

CARGO WORTHY, POINT BY POINT

Every Cargo Worthy container passes the same five checks before we sell it. The grade means the box is structurally sound and watertight, certified fit to carry cargo across the ocean. It carries honest wear from its working life and decades of use ahead.

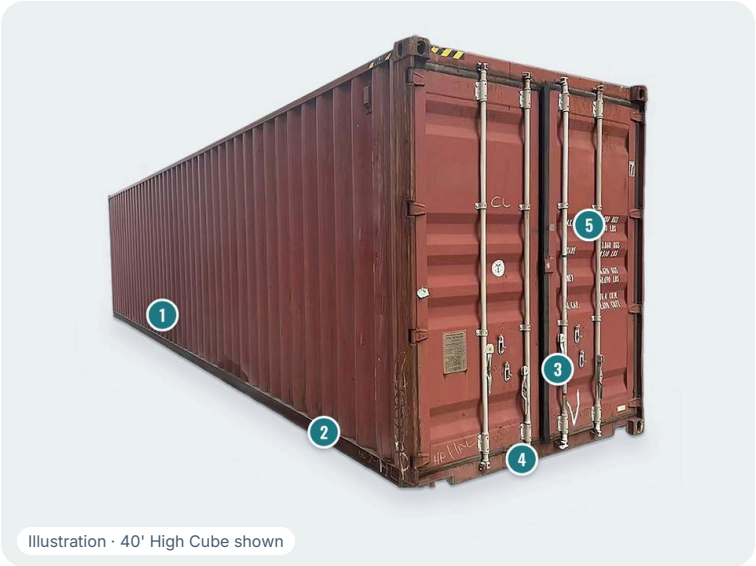

Illustration · 40' High Cube shown

1 Panels

Every side and end wall is checked for holes, cracks and deep dents. A Cargo Worthy box is strong enough to stack nine high and cross the ocean loaded.

2 Rust

We look hard at the rails, corner posts and roof for structural rust. Light surface rust comes with a working life at sea and leaves the steel strong.

3 Doors

Both doors swing open, close tight and lock. Every gasket seals and every locking bar turns, so the inside stays dry.

4 Floor

The marine-grade wood floor and steel cross members are checked for soft spots, holes and damage. It carries forklifts and heavy loads.

5 Markings

The container number and CSC safety plate are present and readable. That plate is what certifies the box for international shipping.

Cargo Worthy in Both Lengths

20' Cargo Worthy

Twenty feet of certified steel. The same five checks, sized for a driveway, a yard or a job site.

40' Cargo Worthy

Double the floor space with the same five checks. Standard 8'6" and High Cube 9'6" heights.

Our Guarantee

365-day wind and watertight guarantee, then free patch kits for life. Inspect your container when it arrives. Send us photos and video of any damage or leak within 10 days of delivery. If a leak appears later in the guarantee period, send photos and video as soon as you see it.

This sheet covers the 20' unit. Photos show typical examples of the grade, not the unit reserved for you. Ask us for photos of your exact container before delivery.
